ACCOMMODATION IN SALAMANCA

Salamanca is a small university city where many students reside all year round. For that reason, it's important to reserve accommodation far in advance. Students can reserve accommodation with us, or they can search for accommodation on their own. In Salamanca-University.org, we offer 3 types of accommodation:

1. **Shared flat**
2. **Spanish host families**
3. **Student residence**

Accommodation in a student residence is the most popular choice among international students for their stay in Salamanca. Nevertheless, we recommend choosing either option 1 or option 2.

The problem with student residences is that they give priority to Spanish students because they tend to reserve accommodation during the full scholastic year. Available accommodation for international students is only announced after all the Spanish students have already been placed in rooms.

Therefore, if you want to reserve a room in a Salamanca University student residence, we won't be able to confirm your accommodation until one week before the start of your course. If your request for accommodation is denied, you might not be able to find a place to stay before the start of your course.

GROUPS

For those that book as a group, we can offer both tailor-made programs as well as standard Spanish courses. There are no conditions on minimum group size; however, the maximum permitted by the University is 20 people. Group members can study alongside each other only, or they can choose to study in classes along with other foreign students. Below are the 3 options:

- **Option 1:** applicable when all members in the group have the same Spanish level. The group can specify starting dates, the course length, the number of lessons per week and course content.
- **Option 2:** if members of the group have differing Spanish levels, they will participate in standard Spanish courses (with set dates and content, etc.) but will receive a discount for booking as a group.
- **Option 3:** we can offer fully personalized Spanish courses, be it Spanish for doctors, lawyers, business, etc. Let us know your thoughts and we will tailor a program to suit your needs. Don't forget, we can also provide group accommodation, as well as personalized cultural activities both in and beyond Salamanca.

"The staff were great and always willing to help, in any situation. Standards at the University of Salamanca are extremely high".

FACILITIES

Each student will be presented with a student card, allowing them access to all university facilities, such as the University library, sports facilities and computer centre, amongst others.

The department of Spanish courses for foreigners is located in the new headquarters, one of the historical university buildings situated in the Plaza de Fray Luis de León 1-8, which is in the centre of the old town.

Although it is a historical building, the classrooms have been refurbished and have access to the latest technology to help students progress as swiftly as possible.

Although today some of the new faculties are located in the outskirts of Salamanca, many of them are still located in the historic centre. The many student cafeterias, libraries, bookshops, theatres and student activities that are arranged make for a lively, youthful atmosphere.

ACTIVITIES

Over the course of the year, the University of Salamanca organizes cultural, academic and sports activities which students can sign up for. A wide variety of activities are arranged to encourage foreign students to practice their language skills, learn more about the Spanish culture and have fun.

[Request a Quote](#)

There are three types of activity:

- **Full day/ weekend excursions away from Salamanca:** To destinations such as Toledo, Segovia, Ávila, El Escorial, Madrid and Seville. Experts will accompany the students and teach them about the history and culture of the cities.
- **Cultural activities in Salamanca:** Guided visits to the city's sights of interest including monuments and museums. Cinema events are also planned to allow students to watch famous Spanish films.
- **Social gatherings:** Including welcome parties, Christmas dinners and other get togethers so that students can get to know their classmates and professors better in an informal setting.

Those attending the summer courses will have a wider selection of activities, including Spanish dance classes, guitar classes and cookery.
